

Joey Emgy - Planet Earth

Intro

Vers 1:

Have you ever seen
our perfect nature?
Where has it been
our hopeful future?

Small an sensitive
it's our hope and it's worth
to be protected,
our planet earth.

Chorus:

Please stop the war,
otherwise nothing will be left.
And the peace we must support
it will be the greatest test
for mankind today.

Interlude

Vers 2:

Planet number three
with blue sky, oceans and ice.
this world, this world can be
our paradise!

There's no second home
in the great universe
we have only this world
our planet earth.

Chorus

Outro
