

Joey Emgy - Remember

Chorus:

I want you to remember the time, it's far away
Come with me to remember the day.
Please help me to remember the story of my life
And the funniest times, remember, of my life.

Seven years ago I met my best friend.
We celebrate and he always knows what I mean.
We talk all night and no one wants to sleep,
Instead of sleeping we are dancing to the beat.

I want you to remember the time, it's far away
Come with me to remember the day.
Please help me to remember the story of my life
And the funniest times, remember, of my life.

Vers 1:

When I'm drunk I tend to tell the truth.
saying everything not meant to tell.
I am happy and enjoy our youth
With you my friends it's great all night and day.

Chorus

Vers 2:

Enjoy the days, you'll never be so young again,
Use every moment now and then.
You have experienced the greatest thing
And when we're old, we always sing:

Chorus (only 1st part)
